Rockin' Biogeography

Target Grades: 4 & 5

Offered: September 2012—May 2013

This program is held at the Oxbow Eco-Center

Giant sloths, mastodons and saber-tooth cats, oh my! Students will explore Florida through geologic time, learn how it has changed shape, how fossils are formed, and why some animals survived while others went extinct. Master Chef Iggy Rock will introduce students to the rock cycle and the recipe for making rocks. Students will also discover how rocks and minerals are used in their everyday lives. Workbook included.

Wild Weather and the Watershed

Target Grades: 4 & 5

Offered: September 2012—March 2013

This program is held at the Oxbow Eco-Center

Each class will explore the basic concepts of weather, the forces of nature, and how the water cycle makes the world go 'round! The program includes discussions about how Florida's weather is formed, components of weather (precipitation, wind, humidity, air pressure, etc.), and how it's all tied into the watershed where we live. Students will collect weather-related data and learn about how fire and hurricanes shape Florida's landscapes. Workbook included.

FARM EXCURSION

Target Grade: K-3

Offered: September 2012—May 2013 (Tuesdays only)

This program is held at the ZEP 4-H Farm in Fort Pierce

This special field trip takes students on an adventure to the farm! Students learn where their food comes from, healthy eating habits, and concepts of the water cycle. Donkeys, horses, chickens, and turkeys are among the animals that will welcome the students to the farm, and two vegetable gardens aide in student understanding in this fun hands-on tour. Farm workbooks included.

Please note: Cost of program is \$2 per public or private school student. The farm can accommodate up to 150 students. Held on Tuesdays only, so reserve early!

WHAT TO BRING

- Chaperones
- Proper walking shoes
- Water bottles
- Hats
- Sunscreen
- Insect repellent
- A love for learning and sense of adventure!

The Oxbow Eco-Center and 4-H are happy to offer five field trip programs for the 2012-2013 school year. All of our programs include a student workbook and are designed with Sunshine State Standards and Scopes and Sequences in mind.

Unless otherwise noted, field trips are held Tuesdays through Thursdays, starting as early as 9:30 am and ending as late as 12:00 pm. With the exception of the Farm Excursion, programs held at the Oxbow Eco-Center can accommodate a maximum of 40 students. The cost is \$3 per student, however, St. Lucie public schools may attend at no cost.

The special Farm Excursion program is held on Tuesdays only at the Zoological Education Program (ZEP) farm in Fort Pierce and can accommodate up to 150 students. The fee is \$2 for all students that participate.

Groups are welcome to bring lunches to eat on-site after the program. We ask, however, that all garbage is 'packed out' when you leave. Recyclables can be deposited in the receptacles on-site at the Oxbow.

Due to a high level of interest and limited space in our programs we recommend booking your program well in advance. We also request 48 hours notice if you need to cancel the program for any reason. We reserve the right to cancel programs due to inclement weather or any unavoidable conflict.

The Oxbow Eco-Center is dedicated to educational programs that foster an awareness and appreciation of the natural world, an understanding of ecosystems and sustainability, and a sense of stewardship toward Florida and all its inhabitants.
